

SPOTLIGHT S4

SPOTLIGHT S4

Spotlight S4 with horizontal driver box features a simple yet innovative joint that enables the fixture to be aimed in virtually all directions still keeping the gearbox in line with the track. This fundamental design choice makes it possible to create rich lighting solutions with a visually very clean overall impression. The reflectors are easy to change and are the same as used in the D4, D6, G2 and G3 compact platform, which creates a family in lighting and design.
